Production, Prices, Employment, and Trade in Northwest Forest Industries, All Quarters 2008

Debra D. Warren

ABSTRACT

Warren, Debra D. 2009. Production, prices, employment, and trade in Northwest forest industries, all quarters 2008. Resour. Bull. PNW-RB-258. Portland, OR: U.S. Department of Agriculture, Forest Service, Pacific Northwest Research Station. 163 p.

Provides current information on lumber and plywood production and prices; employment in the forest industries; international trade in logs, lumber, and plywood; volume and average prices of stumpage sold by public agencies; and other related items.

Keywords: Forestry business economics, lumber prices, plywood prices, timber volume, stumpage prices, employment (forest products industries), marketing (forest products), imports and exports (forest products).

PREFACE

This report presents current information on the timber situation in Alaska, Washington, Oregon, California, Montana, Idaho, and British Columbia, including data on lumber and plywood production and prices; timber harvest; employment in forest products industries; international trade in logs, pulpwood, chips, lumber, veneer, and plywood; log prices in the Pacific Northwest; volume and average prices of stumpage sold by public agencies; and other related items.

Cooperation in supplying data has been received from the following sources: U.S. International Trade Commission; Washington State Department of Natural Resources and Employment Security Department; Oregon State Department of Forestry and Department of Employment; California State Department of Employment and Department of Conservation; Montana State Forester and State Employment Service; Idaho State Department of Public Lands and Department of Employment; Alaska State Department of Labor and Department of Natural Resources of the Division of Lands; U.S. Department of Commerce; U.S. Department of the Interior, Bureau of Land Management; British Columbia's Council of Forest Industries; and a number of private industry associations, firms, and individuals. A special "thank-you" goes to Judy Mikowski at the PNW Research Station for her assistance in the Washington and Oregon employment tables (25-26), the Western Wood Products Association tables (9-13), and all of the graphs.

The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Seattle Customs District includes all coastal and inland ports in the State of Washington, except Longview and Vancouver. Columbia-Snake Customs District includes all Oregon ports and Longview and Vancouver, Washington. Anchorage Customs District is the State of Alaska. San Francisco Customs District includes Monterey and all ports north of Monterey, California.

The statistical data are from secondary sources and are brought together to make such information more readily available. Sources are indicated for each table and can be contacted directly for means used in data collection.

Readers are cautioned that unit values should not be interpreted as accurate indicators of prices. Unit values for individual trade flows, especially those involving small volumes, frequently vary widely within a year, across origins or destinations, and through time.

AUTHOR

DEBRA D. WARREN is an economist, Pacific Northwest Research Station, Suite 400, 620 SW Main, Portland, OR. The mailing address is P.O. Box 3890, Portland, OR 97208-3890. The phone number is 503/808-2001, and the FAX number is 503/808-2033. Conversion Factors Used in This Report

For logs: 4.53 cubic meters equals 1 thousand board feet

For lumber: 2.36 cubic meters equals 1 thousand board feet

For veneer: 92.9 square meters equals 1 thousand square feet

For plywood: .885 cubic meters equals 1 thousand square feet (3/8-inch basis)

For chips, paper, and pulpwood: .907 metric tons equals 1 short ton

This Page Left Blank Intentionally

Western Lumber Production and Prices

- Softwood lumber production

A total of 12.9 billion board feet of softwood lumber was produced in the Western United States in 2008, and the total U.S. figure was 28.7 billion board feet (table 1). Total softwood lumber production in the fourth quarter of 2008 was 6.0 billion board feet, and 44.3 percent of that was produced in the West.

- Wholesale lumber prices

Average wholesale prices decreased in 2008 for all of the selected lumber products (table 7). Year-end 2008 prices averaged a 13.5-percent decrease from year-end 2007, across all five selected lumber products.

Plywood Production and Prices

- Plywood production in 2008

United States softwood structural panel board production in 2008, at 23,241 million square feet (3/8-inch basis), decreased 13.9 percent from 2007. Monthly figures are no longer available (table 1).

Wholesale prices of two of the selected plywood products decreased (one increased) from 2007 to 2008. Year-end 2008 prices averaged a 4.2-percent decrease (table 8) from year-end 2007 prices.

Employment in Forest Products Industries

- Employment numbers for 2008

In 2008, the number of persons employed in the forest products industries decreased by 3,700 persons from 2007 in Oregon and by 1,500 persons in Washington (table 21).

In Oregon, there were 11.3 direct jobs per million board feet of timber harvested in 2007, and Washington had 12.3 (using harvest figures from table 16). Only preliminary year-end 2008 harvest numbers are available at the time of this printing.

Log, Pulp, and Chip Exports

- Washington and Oregon log exports

Log exports from Washington and Oregon ports totaled 776.3 million board feet in 2008, as compared to 673.0 million board feet in 2007. In 2008, Washington Customs District exported 381.4 million board feet of logs to all countries, and Oregon Customs District exported 395.0 (table 27).

- Log export prices for Washington and Oregon

Softwood log exports from Washington and Oregon ports averaged $667.32 (per thousand board feet) in 2008, down from the 2007 average of $686.89. The fourth quarter 2008 values for both states averaged $748.36 (table 29), up from $656.03 in the third quarter of 2008.

- Log exports from California and Alaska

San Francisco Customs District exported 2.8 million board feet of logs in 2008, compared with 457 thousand board feet in 2007 (table 30). The Anchorage Customs District exported 203.6 million board feet of logs, compared with 206.5 in 2007 (table 31).

- Pulp volumes in the Pacific Northwest

The Seattle Customs District exported much less volume of dissolving grade pulp in 2008. Both grades of pulp exports decreased in the Columbia-Snake and San Francisco Customs Districts. The Anchorage Customs District showed a decrease in paper grade pulp exports (table 46).

- Average value of pulp exports

The Seattle Customs Districts showed a slight increase in the average value of dissolving grade and a 19.5 percent decrease in paper grade value. The Columbia-Snake and Anchorage Customs Districts prices were down (table 47).

- Chip exports

Three customs districts reflected an increase in the volume of chips exported in 2008 (table 48).

Lumber, Plywood, and Veneer

- Lumber export volumes from the Northwest

Both the Columbia-Snake and the Seattle Customs Districts had an increase in the volume of lumber exports from 231.4 million board feet in 2007 to 293.0 in 2008 (table 50). Southern California lumber export volumes increased in 2008 (table 53). Northern California lumber exports increased in 2008 (table 54). Alaska decreased lumber export volumes to 118 thousand board feet (table 55).

- Average value of lumber exports

In the Seattle and Columbia-Snake Customs Districts, the average value of lumber exports decreased from $754.63 (per thousand board feet) in 2007 to $736.13 in 2008 (table 52). Southern California lumber export prices dropped in 2008 (table 53). Northern California (table 54) lumber export prices decreased from $1,016.50 in 2007 to $871.91 in 2008. Alaska lumber prices (table 55) dropped from $1,222.79 in 2007 to $732.33 in 2008.

- Oregon and Washington lumber imports

The Seattle Customs District imported 1.7 billion board feet of lumber in 2008, mostly from Canada (table 68). The Columbia-Snake Customs District imported 17.6 million board feet in 2008, compared with 47.5 million in 2007, mostly from Chile (table 70).

- Plywood exports

The volume of softwood and hardwood plywood exports from both the Seattle and Columbia-Snake Customs Districts increased in 2008. The values were very similar to the 2007 prices (table 72).

.

- Veneer exports

In 2008, veneer export volumes decreased in the Seattle Customs District, but softwood volume increased in the Columbia-Snake Customs District (table 74). The prices rose in Oregon, but dropped for hardwood veneer in Washington.

Timber Sold by Forest Service Regions

- Sold volume in Northern Region

Not all ownership numbers are available, but the amount of timber sold on National Forest lands in Montana and northern Idaho increased 32.8 percent from 2007 to 2008 (table 75).

- Sold volume in northern California

In 2008, the volume of timber sold on USDA Forest Service lands in northern California decreased 33.3 percent from the 2007 total (table 83).

- Sold volume in Washington and Oregon

Oregon and Washington showed a decrease of 2.7 percent in the amount of timber sold on USDA Forest Service lands from 2007 to 2008 (table 89).

- Sold volume in Alaska

In 2008, the volume of timber sold on National Forest lands in Alaska was 8.3 million board feet, compared to 29.0 million board feet in 2007 (table 95). Average values increased from $15.92 in 2007 to $47.09 in 2008 (table 96).

TABLES AND FIGURES

Table 1—U.S. softwood lumber and structural panel board production, 1998-2008

Year	U.S. softwood lumber production				U.S. softwood structural panel board production
	Total softwood lumber	Western region[a]	Southern pine region	Other softwoods	
	Million board feet				*Million feet, 3/8-inch basis*

Note: Individual columns may not add to totals because of rounding.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Data are compiled from Department of Commerce records at the end of each quarter.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Data are compiled from Department of Commerce records at the end of each quarter.

Table 30—Volume and average value of softwood log exports from the San Francisco Customs District by species and destination, 1998-2008

(In thousand board feet, Scribner scale)

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) including inland freight, insurance, and other charges to the port of exportation. Data are compiled from Department of Commerce records at the end of each quarter.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Seattle Customs District includes all ports in the State of Washington, except Longview and Vancouver. Columbia-Snake Customs District includes all Oregon ports and Longview and Vancouver, Washington. San Francisco Customs District includes all coastal and inland ports in the State of California from Monterey north. The Anchorage Customs District is the State of Alaska.

Note: The U.S. Bureau of Indian Affairs land is now privately owned and no longer managed by the BIA. That category has been dropped. BLM numbers are only available annually.

[a] Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage on National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

[b] Does not include cull log prices.

Source: Respective agencies listed.

[a] Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage on National Forest land are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

[a] Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Before 1984, prices for stumpage on National Forest lands are statistical high bids. The statistical high bid is defined as the bid price minus credits for road costs; it includes an allowance for sale-area betterment (K-V funds). Beginning in 1984, prices for stumpage on National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

[a] Prices for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Before 1984, prices for stumpage on National Forest lands are statistical high bids. The statistical high bid is defined as the bid price minus credits for road costs; it includes an allowance for sale-area betterment (K-V funds). Beginning in 1984, prices for stumpage on National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

[b] Includes Port-Orford-cedar, Alaska cedar, incense cedar, and western redcedar.

Source: Forest Service, U.S. Department of Agriculture. Pacific Northwest Region includes Oregon and Washington and a small portion of northern California.

[a] Preliminary.

[b] Prices for individual sales may vary from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage in National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

[c] Does not include noble fir or Shasta red fir.

Source: Forest Service, U.S. Department of Agriculture. Pacific Northwest Region includes Oregon and Washington and a small portion of northern California.

The **Forest Service** of the U.S. Department of Agriculture is dedicated to the principle of multiple use management of the Nation's forest resources for sustained yields of wood, water, forage, wildlife, and recreation. Through forestry research, cooperation with the States and private forest owners, and management of the national forests and national grasslands, it strives—as directed by Congress—to provide increasingly greater service to a growing Nation.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W. Washington, DC 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
