Production, Prices, Employment, and Trade in Northwest Forest Industries, All Quarters 2009

Debra D. Warren

ABSTRACT

Warren, Debra D. 2010. Production, prices, employment, and trade in Northwest forest industries, all quarters 2009. Resour. Bull. PNW-RB-259. Portland, OR: U.S. Department of Agriculture, Forest Service, Pacific Northwest Research Station. 157 p.

Provides current information on lumber and plywood production and prices; employment in the forest industries; international trade in logs, lumber, and plywood; volume and average prices of stumpage sold by public agencies; and other related items.

Keywords: Forestry business economics, lumber prices, plywood prices, timber volume, stumpage prices, employment (forest products industries), marketing (forest products), imports and exports (forest products).

PREFACE

A new comprehensive version of this report, showing all years available, may be accessed online at: <http://www.fs.fed.us/pnw/about/programs/qsv/index.shtml> (click on Featured Research on the right)

This report presents current information on the timber situation in Alaska, Washington, Oregon, California, Montana, Idaho, and British Columbia, including data on lumber and plywood production and prices; timber harvest; employment in forest products industries; international trade in logs, pulpwood, chips, lumber, veneer, and plywood; log prices in the Pacific Northwest; volume and average prices of stumpage sold by public agencies; and other related items.

Cooperation in supplying data has been received from the following sources: U.S. International Trade Commission; Washington State Department of Natural Resources and Employment Security Department; Oregon State Department of Forestry and Department of Employment; California State Department of Employment and Department of Conservation; Montana State Forester and State Employment Service; Idaho State Department of Public Lands and Department of Employment; Alaska State Department of Labor and Department of Natural Resources of the Division of Lands; U.S. Department of Commerce; U.S. Department of the Interior, Bureau of Land Management; British Columbia's Council of Forest Industries; and a number of private industry associations, firms, and individuals. A special "thank-you" goes to Judy Mikowski at the PNW Research Station for her assistance in the Washington and Oregon employment tables (25-26) and all of the graphs.

The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Seattle Customs District includes all coastal and inland ports in the State of Washington, except Longview and Vancouver. Columbia-Snake Customs District includes all Oregon ports and Longview and Vancouver, Washington. Anchorage Customs District is the State of Alaska. San Francisco Customs District includes Monterey and all ports north of Monterey, California.

The statistical data are from secondary sources and are brought together to make such information more readily available. Sources are indicated for each table and can be contacted directly for means used in data collection.

Readers are cautioned that unit values should not be interpreted as accurate indicators of prices. Unit values for individual trade flows, especially those involving small volumes, frequently vary widely within a year, across origins or destinations, and through time.

AUTHOR

DEBRA D. WARREN is an economist, Pacific Northwest Research Station, Suite 400, 620 SW Main, Portland, OR. The mailing address is P.O. Box 3890, Portland, OR 97208-3890. The phone number is 503/808-2001, and the FAX number is 503/808-2033. 151	Figure 8--Average value of all timber products sold from Forest Service Regions of the Western United States, in dollars per thousand board feet

Conversion Factors Used in This Report

For logs: 4.53 cubic meters equals 1 thousand board feet

For lumber: 2.36 cubic meters equals 1 thousand board feet

For veneer: 92.9 square meters equals 1 thousand square feet

For plywood: .885 cubic meters equals 1 thousand square feet (3/8-inch basis)

For chips, paper, and pulpwood: .907 metric tons equals 1 short ton

This Page Left Blank Intentionally

Western Lumber Production and Prices

- Softwood lumber production

A total of 10.3 billion board feet of softwood lumber was produced in the Western United States in 2009, and the total U.S. figure was 22.9 billion board feet (table 1). Total softwood lumber production in the fourth quarter of 2009 was 5.4 billion board feet, and 44.9 percent of that was produced in the West.

- Wholesale lumber prices

Average wholesale prices decreased in 2009 for all but one of the selected lumber products (table 7). Year-end 2009 prices averaged a 9.9-percent decrease from year-end 2008, across all five selected lumber products.

Plywood Production and Prices

- Plywood production in 2009

United States softwood structural panel board production in 2009, at 18,206 million square feet (3/8-inch basis), decreased 21.7 percent from 2008. Monthly figures are no longer available (table 1).

Wholesale prices decreased for all of the selected plywood products from 2008 to 2009. Year-end 2009 prices averaged a 13.3-percent decrease (table 8) from year-end 2008 prices.

Employment in Forest Products Industries

- Employment numbers for 2009

In 2009, the number of persons employed in the forest products industries decreased by 7,100 persons from 2008 in Oregon and by 5,600 persons in Washington (table 21).

In Oregon, there were 11.8 direct jobs per million board feet of timber harvested in 2009, and Washington had 12.8 (using harvest figures from table 16).

Log, Pulp, and Chip Exports

- Washington and Oregon log exports

Log exports from Washington and Oregon ports totaled 697.3 million board feet in 2009, as compared to 776.3 million board feet in 2008. In 2009, Washington Customs District exported 343.7 million board feet of logs to all countries, and Oregon Customs District exported 353.6 (table 27).

- Log export prices for Washington and Oregon

Softwood log exports from Washington and Oregon ports averaged \$615.42 (per thousand board feet) in 2009, down from the 2008 average of \$667.32. The fourth quarter 2009 values for both states averaged \$571.25 (table 29), down from \$590.52 in the third quarter of 2009.

- Log exports from California and Alaska

San Francisco Customs District exported 8.3 million board feet of logs in 2009, compared with 2.8 million board feet in 2008 (table 30). The Anchorage Customs District exported 204.9 million board feet of logs, compared with 203.6 in 2008 (table 31).

- Pulp volumes in the Pacific Northwest

The Seattle Customs District exported much less volume of dissolving grade pulp, but more paper grade pulp in 2009. Both grades of pulp exports decreased in the Columbia-Snake and San Francisco Customs Districts, and Alaska showed a decrease in paper grade pulp exports (table 46).

- Average value of pulp exports

Washington and Oregon showed a decrease in the value of both pulp grades. The Anchorage and San Francisco Customs Districts prices were up in 2009 (table 47).

- Chip exports

San Francisco and Anchorage Customs Districts reflected an increase in the volume of chips exported in 2009 (table 48). Seattle and Columbia-Snake were both down.

Lumber, Plywood, and Veneer

- Lumber export volumes from the Northwest

Both the Columbia-Snake and the Seattle Customs Districts had an increase in the volume of lumber exports from 293.0 million board feet in 2008 to 344.2 in 2009 (table 50). All California lumber export volumes decreased in 2009 (tables 53 and 54). Alaska increased lumber export volumes to 176 thousand board feet (table 55).

- Average value of lumber exports

In the Seattle and Columbia-Snake Customs Districts, the average value of lumber exports decreased from \$736.13 (per thousand board feet) in 2008 to \$649.86 in 2009 (table 52). Southern California lumber export prices dropped minimally in 2009 (table 53). Northern California (table 54) lumber export prices decreased slightly in 2009. Alaska lumber prices (table 55) rose from \$732.33 in 2008 to \$898.40 in 2009.

- Oregon and Washington lumber imports

The Seattle Customs District imported 1.1 billion board feet of lumber in 2009, mostly from Canada (table 68). The Columbia-Snake Customs District imported 7.4 million board feet in 2009, compared with 17.6 million in 2008, again mostly from Chile (table 70).

- Plywood exports

The volume of softwood and hardwood plywood exports from both the Seattle and Columbia-Snake Customs Districts increased in 2009. The values were down slightly in Washington, but up in Oregon in 2009 (table 72).

- Veneer exports

In 2009, veneer export volumes decreased in the Seattle Customs District, but hardwood volume increased in the Columbia-Snake Customs District (table 74). The prices rose in Washington, but dropped in Oregon.

Timber Sold by Forest Service Regions

- Sold volume in Northern Region

Not all ownership numbers are available, but the amount of timber sold on National Forest lands in Montana and northern Idaho increased 94.1 percent from 2008 to 2009 (table 75).

- Sold volume in northern California

In 2009, the volume of timber sold on USDA Forest Service lands in northern California increased 64.0 percent from the 2008 total (table 83).

- Sold volume in Washington and Oregon

Oregon and Washington showed an increase of 17.1 percent in the amount of timber sold on USDA Forest Service lands from 2008 to 2009 (table 89).

- Sold volume in Alaska

In 2009, the volume of timber sold on National Forest lands in Alaska was 58.6 million board feet, compared to 8.3 million board feet in 2008 (table 95). Average values decreased from \$47.09 in 2008 to \$22.42 in 2009 (table 96).

TABLES AND FIGURES

Table 1—U.S. softwood lumber and structural panel board production, 1999-2009

Year	U.S. softwood lumber production				U.S. softwood structural panel board production
	Total softwood lumber	Western region ^a	Southern pine region	Other softwoods	
	----- Million board feet -----				Million feet, 3/8-inch basis
1999	36,534	17,744	16,642	2,150	29,034

Note: Individual columns may not add to totals because of rounding.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Data are compiled from Department of Commerce records at the end of each quarter.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Data are compiled from Department of Commerce records at the end of each quarter.

Table 30—Volume and average value of softwood log exports from the San Francisco Customs District by species and destination, 1999-2009

(In thousand board feet, Scribner scale)

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) including inland freight, insurance, and other charges to the port of exportation. Data are compiled from Department of Commerce records at the end of each quarter.

^a Great Falls Customs District includes all ports in Montana and Idaho.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Data are compiled from Department of Commerce records at the end of each quarter.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Seattle Customs District includes all ports in the State of Washington, except Longview and Vancouver. Columbia-Snake Customs District includes all Oregon ports and Longview and Vancouver, Washington. San Francisco Customs District includes all coastal and inland ports in the State of California from Monterey north. The Anchorage Customs District is the State of Alaska.

NA = not available.

R = revised.

Note: The U.S. Bureau of Indian Affairs land is now privately owned and no longer managed by the BIA. That category has been dropped. BLM numbers are only available annually.

^a Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage on National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.^b Does not include cull log prices.

Source: Respective agencies listed.

^a Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage on National Forest land are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

^a Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Before 1984, prices for stumpage on National Forest lands are statistical high bids. The statistical high bid is defined as the bid price minus credits for road costs; it includes an allowance for sale-area betterment (K-V funds). Beginning in 1984, prices for stumpage on National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

^a Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage on National Forest land are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

^a Prices for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Before 1984, prices for stumpage on National Forest lands are statistical high bids. The statistical high bid is defined as the bid price minus credits for road costs; it includes an allowance for sale-area betterment (K-V funds). Beginning in 1984, prices for stumpage on National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

^b Includes Port-Orford-cedar, Alaska cedar, incense cedar, and western redcedar.

Source: Forest Service, U.S. Department of Agriculture. Pacific Northwest Region includes Oregon and Washington and a small portion of northern California.

^a Preliminary.

^b Prices for individual sales may vary from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage in National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

^c Does not include noble fir or Shasta red fir.

Source: Forest Service, U.S. Department of Agriculture. Pacific Northwest Region includes Oregon and Washington and a small portion of northern California.

This Page Left Blank Intentionally

The **Forest Service** of the U.S. Department of Agriculture is dedicated to the principle of multiple use management of the Nation's forest resources for sustained yields of wood, water, forage, wildlife, and recreation. Through forestry research, cooperation with the States and private forest owners, and management of the national forests and national grasslands, it strives—as directed by Congress—to provide increasingly greater service to a growing Nation.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W. Washington, DC 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
