Production, Prices, Employment, and Trade in Northwest Forest Industries, All Quarters 2012

Xiaoping Zhou

ABSTRACT

Zhou, Xiaoping. 2013. Production, prices, employment, and trade in Northwest forest industries, all quarters 2012. Resour. Bull. PNW-RB-265. Portland, OR: U.S. Department of Agriculture, Forest Service, Pacific Northwest Research Station. 163 p.

Provides current information on lumber and plywood production and prices; employment in the forest industries; international trade in logs, lumber, and plywood; volume and average prices of stumpage sold by public agencies; and other related items.

Keywords: Forestry business economics, lumber prices, plywood prices, timber volume, stumpage prices, employment (forest products industries), marketing (forest products), imports and exports (forest products).

PREFACE

A new comprehensive version of this report, showing all years available, may be accessed online at:
<http://www.fs.fed.us/pnw/ppet/>

This report presents current information on the timber situation in Alaska, Washington, Oregon, California, Montana, Idaho, and British Columbia, including data on lumber and plywood production and prices; timber harvest; employment in forest products industries; international trade in logs, pulpwood, chips, lumber, veneer, and plywood; log prices in the Pacific Northwest; volume and average prices of stumpage sold by public agencies; and other related items.

Cooperation in supplying data has been received from the following sources: U.S. International Trade Commission; Washington State Department of Natural Resources and Employment Security Department; Oregon State Department of Forestry and Department of Employment; California State Department of Employment and Department of Conservation; Montana State Forester and State Employment Service; Idaho State Department of Public Lands and Department of Employment; Alaska State Department of Labor and Department of Natural Resources of the Division of Lands; U.S. Department of Commerce; U.S. Department of the Interior, Bureau of Land Management; British Columbia's Council of Forest Industries; and a number of private industry associations, firms, and individuals.

The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Seattle Customs District includes all coastal and inland ports in the State of Washington, except Longview and Vancouver. Columbia-Snake Customs District includes all Oregon ports and Longview and Vancouver, Washington. Anchorage Customs District is the State of Alaska. San Francisco Customs District includes Monterey and all ports north of Monterey, California.

The statistical data are from secondary sources and are brought together to make such information more readily available. Sources are indicated for each table and can be contacted directly for means used in data collection.

Readers are cautioned that unit values should not be interpreted as accurate indicators of prices. Unit values for individual trade flows, especially those involving small volumes, frequently vary widely within a year, across origins or destinations, and through time.

85	Figure 5—Softwood lumber exports from Seattle and Columbia-Snake Customs Districts, 2002-2012, in million board feet
92	Figure 6—Softwood lumber exports from San Francisco and Anchorage Customs Districts, 2002-2012, in million board feet
147	Figure 7—Average stumpage prices for sawtimber sold on National Forests, Pacific Northwest Region, in dollars per thousand board feet
157	Figure 8—Average value of all timber products sold from Forest Service Regions of the Western United States, in dollars per thousand board feet

Conversion Factors Used in This Report

For logs:	4.53 cubic meters equals 1 thousand board feet
For lumber:	2.36 cubic meters equals 1 thousand board feet
For veneer:	92.9 square meters equals 1 thousand square feet
For plywood:	.885 cubic meters equals 1 thousand square feet (3/8-inch basis)
For chips, paper, and pulpwood:	.907 metric tons equals 1 short ton

Western Lumber Production and Prices

- Softwood lumber production

A total of 12.9 billion board feet of softwood lumber was produced in the Western United States in 2012, and the total U.S. figure was 28.6 billion board feet (table 1). Total softwood lumber production in the fourth quarter of 2012 was 7.1 billion board feet, and 46.5 percent of that was produced in the West.

- Wholesale lumber prices

Average wholesale prices increased in 2012 for selected lumber products of Douglas-fir (9.8%), Fir-larch (8.7%) and Spruce-pine-fir (17%). The prices for Ponderosa pine boards no. 3 and no. 2 shop decreased by 8.4% and 7.3% respectively (table 7). Year-end 2012 price changes in the range of -8.4 percent to 17.0 percent from year-end 2011, across the five selected lumber products.

Plywood Production and Prices

- Plywood production in 2012

United States softwood structural panel board production in 2012, at 20,219 million square feet (3/8-inch basis), increased by 6.3 percent from 2011 (table 1).

Wholesale prices of all of the selected plywood products increased significantly from 2011 to 2012. Year-end 2012 prices of the three selected plywood products increased at the range of 14.4 to 42.2 percent (table 8) from year-end 2011 prices.

Employment in Forest Products Industries

- Employment numbers for 2012

In 2012, the number of persons employed in the forest products industries increased by 1300 persons from 2011 in Oregon and decreased by 1400 persons in Washington (table 21).

In Oregon, there were 8.2 direct jobs per million board feet of timber harvested in 2012, and Washington had 9.0 (using harvest figures from table 15).

Log, Pulp, and Chip Exports

- Washington and Oregon log exports

Log exports from Washington and Oregon ports totaled 1.25 billion board feet in 2012, as compared to 1.64 billion board feet in 2011. In 2012, Washington Customs District exported 492.5 million board feet of logs to all countries, and Oregon Customs District exported 759.3 (table 26).

- Log export prices for Washington and Oregon

Softwood log exports from Washington and Oregon ports averaged \$668.79 (per thousand board feet) in 2012, down from the 2011 average of \$683.51. The fourth quarter 2012 values for both states averaged of \$698.81 per thousand board feet (table 28), up from \$670.31 in the third quarter of 2012.

- Log exports from California and Alaska

San Francisco Customs District exported 42.6 million board feet of logs in 2012, compared with 48.6 million board feet in 2011 (table 29). The Anchorage Customs District exported 292.1 million board feet of logs, compared with 275.1 in 2011 (table 30).

- Pulp volumes in the Pacific Northwest

The Seattle Customs District exported 3.6 thousand tons of dissolving grade pulp in 2012 compared to 73.6 thousand tons in 2011. The Seattle Customs District exported 358.9 thousand tons of paper grade pulp in 2012, an increase of 13 percent from 2011, and the Columbia-Snake District exported 144.5 thousand tons, an decrease of 27 percent from 2011 (table 46).

- Average value of pulp exports

The average value of dissolving grade pulp decreased in 2012 in Seattle Custom District compared to 2011 from \$1,120.89 to \$909.76, and the average value of paper grade pulp decreased also both in Seattle and Columbia-Snake Customs Districts. The San Francisco prices were increased 11 percent and the average value of paper grade pulp in Anchorage Customs Districts increased dramatically from \$622.25 in 2011 to 1,679.13 per short ton in 2012 (table 47).

- Chip exports

Columbia-Snake exported 1,264 thousand tons of chips in 2012, 15.7 percent fewer than in 2011 with also lower average value of \$64.07 (table 48). Seattle Customs District chip export decreased by 6.8 percent to 191.5 thousand tons in 2012 with slightly higher average value of \$47.78. The chip export in San Francisco District increased by 66 percent to 40.1 thousand tons of chips in 2012, while the chip export from Alaska Customs District in 2012 is about the same as that in 2011.

Lumber, Plywood, and Veneer

- Lumber export volumes from the Northwest

The Seattle Customs Districts decreased the softwood lumber exports by 29 percent from 2011 to 474.4 in 2012 (table 50). Oregon Columbia-Snake District exported 78.5 million board feet of softwood lumber in 2012, as compared to 62.5 in 2011. Softwood lumber export from southern California increased 22 percent from 2011 to 111.6 million board feet in 2012, while northern California exported 81.5 million board feet of softwood lumber in 2012 compared to 83.2 million board feet in 2011 (tables 53 and 54). Alaska had 20 thousand board feet lumber export in 2012 (table 55).

- Average value of lumber exports

In the Seattle and Columbia-Snake Customs Districts, the average value of lumber exports increased from \$668.08 (per thousand board feet) in 2011 to \$678.19 in 2012 (table 52). Southern California lumber export prices decreased from \$685.14 in 2011 to \$626.97 in 2012 (table 53). Northern California (table 54) lumber export prices decreased significantly from \$716.28 in 2011 to \$594.09 in 2012.

- Oregon and Washington lumber imports

The Seattle Customs District imported 1.37 billion board feet of softwood lumber in 2012, 98.5 percent from Canada (table 68). The Columbia-Snake Customs District imported 11.2 million board feet in 2012, compared with 9.0 million in 2011, and about 92 percent from Chile (table 70).

- Plywood exports

The volume of softwood plywood exports from the Seattle Customs District decreased from 185.7 million square feet in 2011 to 160.1 million square feet in 2012. The average

values were also decreased by 7 percent from 2011 to \$350.51 in 2012 (table 72).

- Veneer exports

Softwood veneer export volumes increased significantly for the Seattle Customs District from 38.6 million square feet in 2011 to 48.5 million square feet in 2012 (table 74). Softwood veneer price decreased slightly in 2012, while the hardwood veneer prices increased significantly for the Seattle Customs District from \$165.90 in 2011 to \$286.89 in 2012.

Timber Sold by Forest Service Regions

- Sold volume in Northern Region

The amount of timber sold on National Forest lands in Montana and Idaho further decreased 7.8 percent from 2011 to 2012 (table 75).

- Sold volume in California

In 2012, the volume of timber sold on USDA Forest Service lands in California increased 15.9 percent from the 2011 total (table 89).

- Sold volume in Washington and Oregon

Oregon and Washington showed a significant increase of 37.5 percent in the amount of timber sold on USDA Forest Service lands from 2011 to 2012 (table 95).

- Sold volume in Alaska

In 2012, the volume of timber sold on National Forest lands in Alaska was 52.6 million board feet, compared to 44.3 million board feet in 2011 (table 101). Average values decreased from \$36.93 in 2011 to \$28.90 in 2012 (table 102).

TABLES AND FIGURES

Table 1—U.S. softwood lumber and structural panel board production, 2002-2012

Year	U.S. softwood lumber production				U.S. softwood structural panel board production
	Total softwood lumber	Western region ^a	Southern pine region	Other softwoods	
	----- Million board feet -----				Million feet, 3/8-inch basis
2002	35,832	17,039	16,685	2,108	28,626
2003	35,879	17,146	16,624	2,110	28,321
2004	38,314	18,762	17,306	2,246	28,936
2005	40,336	19,400	18,564	2,371	29,315
2006	38,726	17,983	18,696	2,047	28,383
2007	34,062	15,648	16,613	1,801	27,006

Note: Individual columns may not add to totals because of rounding.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Data are compiled from Department of Commerce records at the end of each quarter.

Table 28—Average value of softwood logs exported from Seattle and Columbia-Snake Customs Districts by species and destination, 2002-2012

(In dollars per thousand board feet, Scribner scale)

Year and quarter	From both customs districts				From Seattle Customs District				From Columbia-Snake Customs District				
	Total	Douglas-fir	Western hemlock	Other softwoods	Total	Douglas-fir	Western hemlock	Other softwoods	Total	Douglas-fir	Western hemlock	Port-Orford-cedar	Other softwoods

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Data are compiled from Department of Commerce records at the end of each quarter.

^a Great Falls Customs District includes all ports in Montana and Idaho.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Data are compiled from Department of Commerce records at the end of each quarter.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Seattle Customs District includes all ports in the State of Washington, except Longview and Vancouver. Columbia-Snake Customs District includes all Oregon ports and Longview and Vancouver, Washington. San Francisco Customs District includes all coastal and inland ports in the State of California from Monterey north. The Anchorage Customs District is the State of Alaska.

R = revised.

^a Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage on National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

^b Does not include cull log prices.

Source: Respective agencies listed.

^a Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage on National Forest land are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

^a Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Before 1984, prices for stumpage on National Forest lands are statistical high bids. The statistical high bid is defined as the bid price minus credits for road costs; it includes an allowance for sale-area betterment (K-V funds). Beginning in 1984, prices for stumpage on National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

Note: The U.S. Bureau of Indian Affairs land is now privately owned and no longer managed by the BIA; the category has been dropped.

^a Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage on National Forest land are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

^a Prices for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Before 1984, prices for stumpage on National Forest lands are statistical high bids. The statistical high bid is defined as the bid price minus credits for road costs; it includes an allowance for sale-area betterment (K-V funds). Beginning in 1984, prices for stumpage on National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

^b Includes Port-Orford-cedar, Alaska cedar, incense cedar, and western redcedar.

Source: Forest Service, U.S. Department of Agriculture. Pacific Northwest Region includes Oregon and Washington and a small portion of northern California.

^a Preliminary.

^b Prices for individual sales may vary from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage in National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

^c Does not include noble fir or Shasta red fir.

Source: Forest Service, U.S. Department of Agriculture. Pacific Northwest Region includes Oregon and Washington and a small portion of northern California.

^a Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage on National Forest lands are high bid value. Road costs are not included in the bid.

Source: Forest Service, U.S. Department of Agriculture. Pacific Northwest Region includes Oregon and Washington and a small portion of northern California

The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the bases of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file an employment complaint, you must contact your agency's EEO Counselor (PDF) within 45 days of the date of the alleged discriminatory act, event, or in the case of a personnel action. Additional information can be found online at http://www.ascr.usda.gov/complaint_filing_file.html.

If you wish to file a Civil Rights program complaint of discrimination, complete the USDA Program Discrimination Complaint Form (PDF), found online at http://www.ascr.usda.gov/complaint_filing_cust.html, or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at program.intake@usda.gov.

Individuals who are deaf, hard of hearing or have speech disabilities and you wish to file either an EEO or program complaint please contact USDA through the Federal Relay Service at (800) 877-8339 or (800) 845-6136 (in Spanish).

Persons with disabilities, who wish to file a program complaint, please see information above on how to contact us by mail directly or by email. If you require alternative means of communication for program information (e.g., Braille, large print, audiotape, etc.) please contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

For any other information dealing with Supplemental Nutrition Assistance Program (SNAP) issues, persons should either contact the USDA SNAP Hotline Number at (800) 221-5689, which is also in Spanish or call the State Information/Hotline Numbers.

For any other information not pertaining to civil rights, please refer to the listing of the USDA Agencies and Offices for specific agency information.
