

Timber Product Output and Use South Carolina, 2021

South Carolina forests accounted for a total of 883,657 thousand cubic feet (MCF) of timber products while the forest products industry produced a total of 828,295 MCF within the State.

This resource update contains the findings of a survey conducted on a sample of all primary wood-using mills in South Carolina. It complements the Forest Inventory and Analysis (FIA) annual inventory of volume and removals. The survey was conducted to determine the amount and source of wood receipts and annual timber product imports/exports. Only primary wood-using mills were surveyed. Primary mills are those that process roundwood in log or bolt form or as chipped roundwood. Examples of industrial roundwood products are saw logs, pulpwood, veneer logs, poles, and logs used for composite board products. Mills producing products from residues generated at primary and secondary processors were not surveyed. Data used in this update were accessed from the FIA Timber Product Output database (see back page).

- * Pulp/Paper mill

South Carolina had a total production of 883,657 MCF in 2021.

There are about 84 primary wood processing mills accounting for production in the State.

Statewide roundwood production (% of total) by product

Saw logs	44.16%	
Pulpwood	35.40%	
Bioenergy/Fuelwood	7.49%	
Composite panel	6.68%	
Veneer logs	3.85%	
Poles/Posts/Pilings	2.05%	
Miscellaneous	0.37%	

*Misc. includes all roundwood uses not listed

South Carolina imported 51,321 MCF into the State and exported 106,683 MCF out of the State making them a net exporter of roundwood.

Total roundwood production over time

■ Hardwood Production ■ Softwood Production

Timber Product Output

The National Timber Product Output (TPO) section of the FIA program collects and reports estimates of industrial and nonindustrial uses of roundwood. Details of the TPO section and TPO data can be found here: <https://www.fia.fs.fed.us/program-features/tpo/>

Additional Resources

The application that produced this resource update was developed using data from the USDA Forest Service Forest Inventory and Analysis TPO database: <https://public.tableau.com/views/TPOREPORTINGTOOL/MakeSelection?:showVizHome=no> Factsheet estimates may not match table estimates due to data refinements after factsheet publication.
