

## Timber Product Output and Use for Kansas, 2020

There were about 42 primary wood processing mills in Kansas

Kansas had a total roundwood production of 1,924 MCF

Kansas generated 6,772 dry tons of mill residues

### 2020 Roundwood Production, Exports, Retained, Imports, and Receipts

### Total Roundwood Production by Species Over Time

### 2020 Roundwood Production (% of total) by Species and Roundwood Product

## How to Cite This Publication

USDA Forest Service. 2025. Timber Product Output and Use for Kansas, 2020. Resour. Update FS-607. Madison, WI: U.S. Department of Agriculture, Forest Service, 3 p.

## Archived Versions

This report can be found in the USDA Forest Service publication database (TreeSearch at: <https://research.fs.usda.gov/treesearch>). Archived versions of Resource Updates can be found by searching TreeSearch by using keywords "Forest Inventory", "Timber products", and "Kansas".

## National Resource Use Monitoring

Timber Product Output (TPO) is a component of FIA's National Resource Use Monitoring (NRUM) program aimed at gathering and reporting information on industrial and nonindustrial uses of roundwood. Data are gathered through annual surveys of primary wood processing facilities and aggregated and reported at the county and/or state level. Data and more information about NRUM and TPO can be found here: <https://www.fs.usda.gov/research/programs/nrum>.

## Additional Resources

The application that produced this resource update was developed using data from the USDA Forest Service Forest Inventory and Analysis NRUM database: <https://public.tableau.com/views/TPOREPORTINGTOOL/MakeSelection?:showVizHome=no>. Factsheet estimates may not match table estimates due to data refinements after factsheet publication.

The FIATPO one-click application can be found here: <https://public.tableau.com/views/FIATPOOneClickFactsheet/StateSelection?:showVizHome=no>.

Additional information about the FIA program can be found here: <https://www.fs.usda.gov/research/programs/fia>.
