

Timber Product Output and Use for Oklahoma, 2024

There were about 12 primary wood processing mills in Oklahoma.

Oklahoma had a total roundwood production of 83,910 MCF.

Oklahoma generated 551,925 dry tons of mill residues.

2024 Roundwood Production, Exports, Retained, Imports, and Receipts (MCF)

Total Roundwood Production by Species Over Time

2024 Roundwood Production (% of total) by Species and Roundwood Product

Hardwood Production by Roundwood Product

Roundwood product

- Miscellaneous
- Saw logs

Total hardwood production volume 6,843 MCF

Softwood Production by Roundwood Product

Roundwood product

- Miscellaneous
- Saw logs

Total softwood production volume 77,067 MCF

2024 Top 10 Species by Roundwood Production Volume (MCF)

- Loblolly-Shortleaf pine
- Other white oaks
- Select red oaks
- Other red oaks
- Select white oaks
- Elm
- Sycamore
- Cedars
- Hickory
- Sweetgum

Total volume of the top 10 species was 83,272 MCF

2024 Source of Roundwood Products

2024 Roundwood Production by Owner

2024 Mill Residues and Use by Roundwood Product

National Resource Use Monitoring

Timber Product Output (TPO) is a component of FIA's National Resource Use Monitoring (NRUM) program aimed at gathering and reporting information on industrial and nonindustrial uses of roundwood. Data are gathered through annual surveys of primary wood processing facilities and aggregated and reported at the county and/or state level. Data and more information about NRUM and TPO can be found here:

<https://www.fs.usda.gov/research/programs/nrum>.

Additional Resources

The application that produced this resource update was developed using data from the USDA Forest Service FIA NRUM database:
