

Timber Product Output and Use for South Carolina, 2024

There were about 81 primary wood processing mills in South Carolina.

South Carolina had a total roundwood production of 690,704 MCF.

South Carolina generated 3,210,317 dry tons of mill residues.

2024 Roundwood Production, Exports, Retained, Imports, and Receipts (MCF)

Total Roundwood Production by Species Over Time

2024 Roundwood Production (% of total) by Species and Roundwood Product

Hardwood Production by Roundwood Product

- Roundwood product
- Pulpwood
 - Bioenergy/fuel
 - Saw logs
 - Veneer logs
 - Miscellaneous
 - Composite panel

Softwood Production by Roundwood Product

- Roundwood product
- Saw logs
 - Pulpwood
 - Composite panel
 - Bioenergy/fuel
 - Veneer logs
 - Poles, posts, pilings
 - Miscellaneous

2024 Top 10 Species by Roundwood Production Volume (MCF)

- Loblolly-Shortleaf pine
- Sweetgum
- Longleaf-Slash pine
- Other red oaks
- Yellow-poplar
- Select white oaks
- Soft maple
- Other pines
- Tupelo/black gum
- Cypress

Total volume of the top 10 species was 673,650 MCF

National Resource Use Monitoring

Timber Product Output (TPO) is a component of FIA's National Resource Use Monitoring (NRUM) program aimed at gathering and reporting information on industrial and nonindustrial uses of roundwood. Data are gathered through annual surveys of primary wood processing facilities and aggregated and reported at the county and/or state level. Data and more information about NRUM and TPO can be found here:

<https://www.fs.usda.gov/research/programs/nrum>.

Additional Resources

The application that produced this resource update was developed using data from the USDA Forest Service FIA NRUM database:

<https://public.tableau.com/views/TPOREPORTINGTOOL/MakeSelection?:showVizHome=no>. Factsheet estimates may not match table estimates due to data refinements after factsheet publication.
